

Hello John,

It was a pleasure talking with you today. I am sure you are busy however, reviewing this information just could be some of the best time spent. Please review the info below and the attached documents with info from 1931 where Dr. Otto Warburg won the Nobel Prize for showing that cancer thrives in anaerobic (without oxygen), or acidic, conditions. In other words, the main cause for cancer is acidity of the human body. Disease can not survive in an Alkaline Body.

Only drink Ionized Alkaline Water. This water is so amazing it has been approved by medical professionals in Japan as the single water product endorsed by the Japanese Association of Preventive Medicine for Adult Disease. Also endorsed by the Japanese Ministry of Health and Welfare (FDA equivalent) because of the miraculous benefit to good health. This amazing technology is brand new to North America and the benefits and results people are getting are phenomenal. Because of all the health benefits from this technology, we are interested in people who are either proactive, into preventative health, fitness, exercising, or people we could help that have a physical illness or issue. My websites are [www.aquamiracle.com](http://www.aquamiracle.com) because the information is 90% visual, go and watch the movies first, especially the colon therapy movie and the water demos at the bottom of that page. 24/7 info call 512-505-6833

Write down any questions you have and we will get on the phone to answer them.

1) Alkalarian (al-kah-laie-re-in): A person and/or a diet that emphasizes predominantly alkaline food, drink and lifestyle, thereby maintaining a balanced acid-alkaline body chemistry for optimal health and vitality.

2) In 1931 Dr. Otto Warburg won the Nobel Prize for showing that cancer thrives in anaerobic (without oxygen), or acidic, conditions. In other words, the main cause for cancer is acidity of the human body. Disease can not survive in an Alkaline Body, Only drink Ionized Alkaline Water.

3) What do the Experts say.?

About Drinking Alkaline Water.

David Niven Miller, Anti-aging expert and author of 'Grow Youthful', "Increasing your consumption of good quality tap water or filtered water can transform your health and play a central role in the healing of virtually all degenerative diseases. However, alkaline water has profound long-term effects because it alkalizes your body and provides an effective antioxidant."

Harald Tietze

Author of "Youthing":

"By drinking alkaline water, the aging process can be reversed and the wastes can be reduced in the long-term to a level of a much younger person. The functions of the organs can be revived."

Dr. Ingfreid Hobert, MD "You do not need expensive medicine with all the negative side effects to regain health... Alkaline water has profound long term effects because it alkalizes your body and provides an effective antioxidant."

Dr Hidemitsu Hayashi Director of the Water Institute, Tokyo, "Bad diets such as meat and potatoes, fried foods, soft drink colas, and sugars build up acid salts in the body. Often these deposits, by having to be stored away from the blood flow, can remain in the body for decades. He recommends the consumption of ionized alkaline water, which will slowly and gently wash these salts away."

Sang Whang, author of 'Reverse Aging', even if we eat the best of organic fruit and vegetables, 97% of our food still consists of carbon, nitrogen, hydrogen and oxygen, which will still be reduced to acid waste. He says that it is not what we put into our bodies.. it's what stays in our bodies as waste that creates our over-acidic condition and causes us to age prematurely.

Dr Theodore Baroody Author, "Alkalize or Die"

"I have administered over 5000 gallons of this water for about every health situation imaginable I feel that restructured alkaline

water can benefit everyone"

More recently, in his remarkable book, 'Alkalize or Die,' Dr. Theodore A. Baroody said essentially the same thing: "The countless names of illnesses do not really matter. What does matter is that they all come from the same root cause. too much tissue acid waste in the body!"

Felicia Drury Climent Author, "The Acid Alkaline balance Diet," Adjunct Professor, City College, New York "After years of very positive continuous clinical experiment that I am conducting with hundreds of clients using electronically restructured alkaline water, it is my opinion that this exciting technology will change the way in which all health providers and the public will approach their health in the coming years.... My suggestion is to drink restructured alkaline water whenever possible."

Dr Sherry Rogers Dr Sherry Rogers

"Alkaline water rids the body of acid waste... After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease." "Alkaline water rids the body of acid waste... After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."

Daniel Reid, Author of the Tao of Detox says:

"Drinking alkaline water is a great way to neutralize and flush out all of the toxins and acids that drain from the tissues and bodily fluids, and to quickly re-hydrate the body and keep the blood alkaline."

Dr. Susan Lark

University lecturer and author of "The Chemistry Of Success" "Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis. Like vitamins C, E and Beta-Carotene, alkaline water act as an antioxidant because of its excess supply of free electrons. This can help the body against the development of heart disease, strokes, immune dysfunctions, and other common ailments

Dr. Robert O. Young, Ph.D. In his book, The pH Miracle:

"Those willing to look again, and with clear eyes, will be rewarded with the secrets to permanent health. We can heal ourselves by changing the environment inside our bodies. Potentially harmful invaders, then, will have nowhere to grow and will become harmless."
